

## Casestack Warehouse of the Year

December 2007

In 2007 Casestack rolled out the inaugural Warehouse of the Year Award. This was a competition among warehouse partners based on excellence in providing Logistic and Customer services. Participating in the program were all four of the Casestack 3PL warehouse partners as well as our own Casestack facility. The warehouses were scored on eight operational and customer service categories. The award promoted strong competition between all the Regional Warehouses throughout the year. It was a pleasure for Steve Sezna and Dave Walden to announce to States Logistics that they are the winners for 2007. A banner was awarded with a plaque to follow. After a brief award ceremony we sat down enjoyed a meal with several of the States management and staff. Our congratulations to Ryan Donovan, Scott Monson, Eric Monson and Bob Barnhart along with their wonderful staff of administrative and warehouse associates for being the recipient of the inaugural Warehouse of the Year Award.
