

Phoenix Facility Scores 980 on AIB Audit

February 8, 2007

Phoenix, AZ – States Logistics has reported that their Phoenix, AZ facility received a superior score of 980 on their AIB (American Institute of Baking) audit conducted earlier today. As a food distribution center the facility is audited annually to ensure that proper procedures and necessary compliance is being followed. The audit tested several aspects of the operation including: adequacy of the food safety program, pest control, operational methods and best practices, maintenance for food safety, and cleaning practices. With a score of 980 the facility is deemed to have achieved the highest rating (Superior) issued by AIB. Todd Myers, Phoenix Warehouse Manager, stated “This score indicates our continuous focus and commitment to operating a clean and secure facility. I am very proud of all warehouse personnel who each play an integral role in achieving our goals toward food safety.”

All States Logistics facilities are audited annually by AIB to make certain proper procedures are being followed in relation to food safety. Currently, all States facilities are rated “Superior” by AIB, illustrating the organization’s dedication to maintaining clean and well-operated warehouses.
