To: Matt Montford, States Logistics
From: Dan Sanker, President & CEO, CaseStack
Re: Congratulations on Becoming a CaseStack Green Carrier

Dear Mr. Montford,

Congratulations to you and your company on becoming a 2010 CaseStack Certified Green Carrier. Because you demonstrated a superior commitment to sustainable transportation methods, we happily present you with a Green Carrier Certificate and extend our sincere appreciation to you for helping implement sustainable supply chain practices.

Each year, CaseStack evaluates its carriers' use of efficient transportation methods against a matrix of practices widely acknowledged as sustainable, including alternative fuel use; engine, tire and body modifications and government or industry-issued green certifications.

Those who qualify, including your company, are listed on our Green Carrier Matrix and promoted to CaseStack customers as responsible corporate citizens. By being listed on the matrix, you prove that implementing cost-saving logistics operations are both fiscally and environmentally responsible. Included in this congratulatory packet are the CaseStack 2010 Green Carrier Certificate, the Green Carrier Matrix and an informational sheet on the Delivered Green Program. If you have not done so already, please email us at solutions@casestack.com to request a high resolution electronic version of the Green Carrier logo and a sample press release to promote your achievement on your own marketing materials and to the media.

We thank you for your commitment to sustainability and efficiency, and look forward to continuing this important collaboration between our companies. For more information on CaseStack's sustainable programs, visit www.casestack.com/sustainability.

Congratulations,

A handwritten signature in purple ink, appearing to read 'Dan Sanker', is placed above the printed name.

Dan Sanker
