S.C.O.R.E. Shipping
Consolidated Orders for Replenishment Efficiencies

Multi-Vendor Consolidation Program

© 2015 www.stateslogistics.com
What is S.C.O.R.E.? States Logistics delivers consolidated shipments to Distributors/Retailers, reducing the number of trucks delivering product. Distributors/Retailers utilize full load quantities which produce handling efficiencies and helps reduce damages. Standing appointments are established which result in scheduling and operational efficiencies.

How does S.C.O.R.E. benefit the retailer?
Facilitates smaller/more frequent deliveries, thereby reducing inventory stock, increases turns, reduced order cycle and increased cash flow. This program improves distribution efficiencies, and lowers landed costs.

Our Strategy:
To partner with key customers to continue expanding our network, creating synergistic operations and provide world-class logistics services. We believe in partnering with our customers to improve service by understanding our customer’s requirements, controlling costs and creating mutual benefits for all parties.
S.C.O.R.E.
